## Spring Kindness Challenge 2026

### What is EchoDeed?

A student-driven platform where students log acts of kindness to earn digital tokens and achievements. It is designed to improve school culture without adding to teacher workloads.

### How Students Earn Tokens:

- Weekly Quests: Completing specific tasks (e.g., "Helper Hero").
- Kindness Bingo: A digital 3x3 grid of daily kindness habits.
- 8 Wildcat Pride Badges: Unlocked at token milestones (25 to 300 tokens).

### The Teacher's Role (The 30-Second Verification):

Teachers do NOT need to log into the system or manage any data.

- The Method: Students show you their log in the app. Provide a quick verbal confirmation or initials if requested.
- The Goal: Simply be a witness to their character in action.
